If more than one ball goes into the hole, those balls will be recorded with the second, third and fourth ball being the closest to the bottom of the hole, and held in reserve until the first place prize winner claims his/her prize.

The winner will be announced at the site of the Ray of Hope Ball Drop and need not be present to win.   - a. A random number generator program will be created.
  - b. The random number generator program will be run four (4) times to determine the winner of the first prize. The winner will be determined in the order that the number is sequentially generated. The first number generated will win the first prize. The additional three (3) numbers that will be generated will determine, in the order of the number generated, a substitute first prize winner in the event the original prize winner cannot be located after a period of 30 days as provided below.
  - c. The random number generator program will be created by one party and verified by another party.
  - d. The determination of the first prize winner will be audited by various representative parties including a Notary Public who will attest to the winning results.
